Flexitank storage - benefits

Load and discharge multiple times

Protects from oxidization

Supplied with a valve and tap for easy wine sampling and quality monitoring

Defends against taint compounds

On-site or off-site tailored solutions

Proprietary design for minimal residue

Avoid demurrage and detention charges by cross-pumping product into a flexitank for on-site storage and free up the delivering container

Flexitanks for storage - features

Containers and/or flexitank equipment for short to mid-term storage

30,000L to 50,000L freestanding flexitanks

24,000L flexitank supplied in a container

Flexitanks can be recovered and recycled
