

CONTAINER DEMAND FURTHER STRENGTHENS

11% WORLD VOLUME GROWTH,

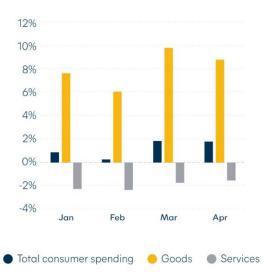

WITH RECORD US IMPORTS, 34% UP FROM 2020!

Ports year on year volumes growth rates (TEUs)

Changes in consumer spending in USA (2021 vs 2019 annualized)

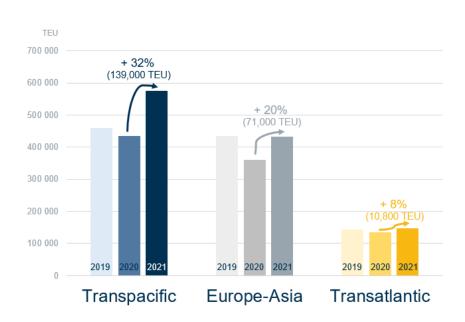

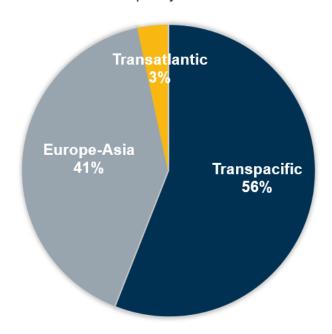

BUT LOW AND UNEVEN CAPACITY INCREASE

Capacity addition on East-West Trades

Weekly Capacity - Increase per trade

Allocation of capacity increase in 2021

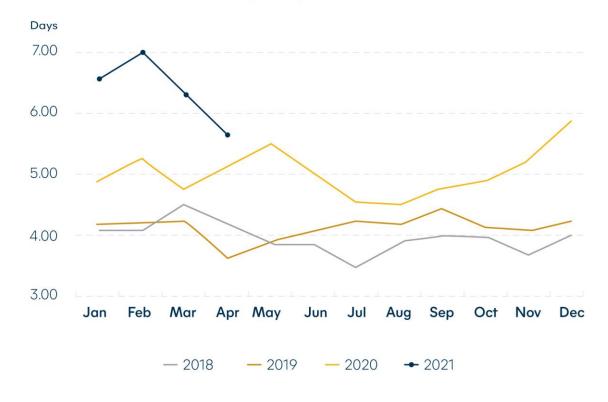

STRAINING NETWORKS, IMPACTING SERVICE LEVELS

VESSELS 6,5 DAYS LATE!!

Global average delays for late vessel arrivals

ABSORBING SERIOUS CAPACITY,

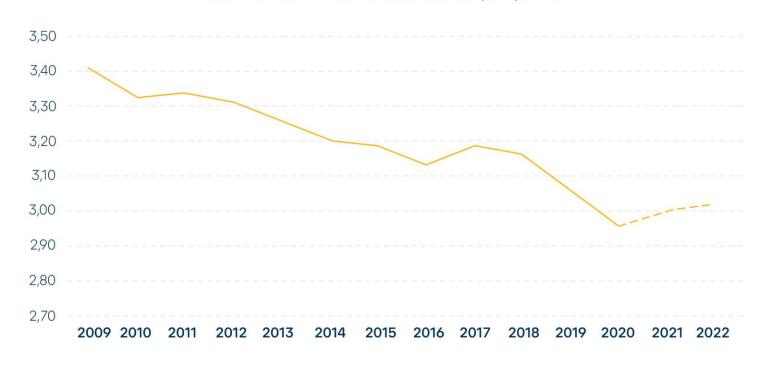

Absorption of global fleet due to delays

AND EQUIPMENT AVAILABILITY!

Container Fleet in TEU / Nominal vessels capacity in TEU

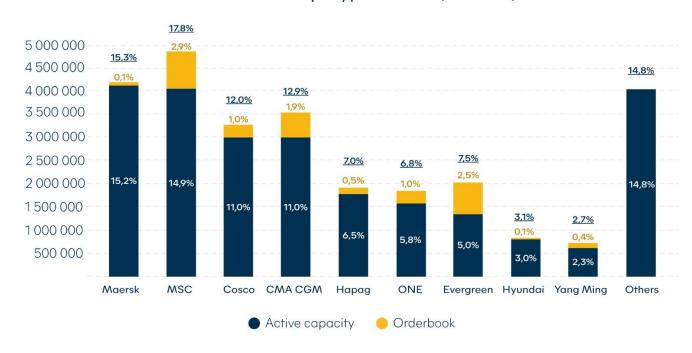

WHERE NEXT?

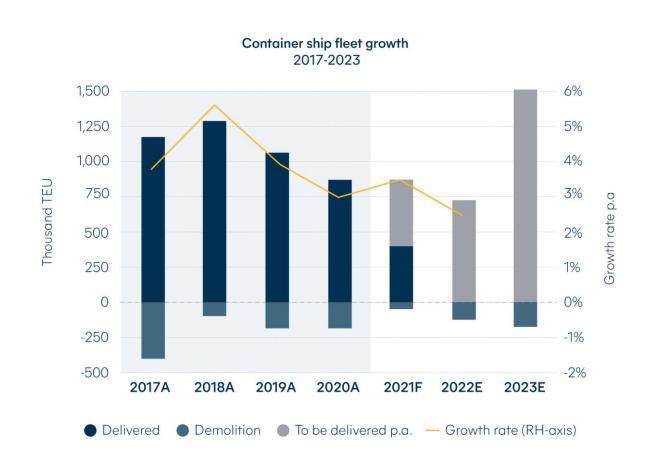

WITH CONCENTRATED SUPPLY,

June 2021 - Active capacity plus orderbook (Million TEU)

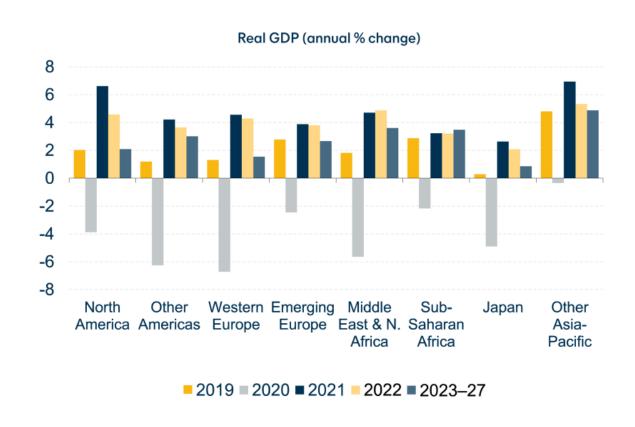

LITTLE CAPACITY INCREASE AHEAD,

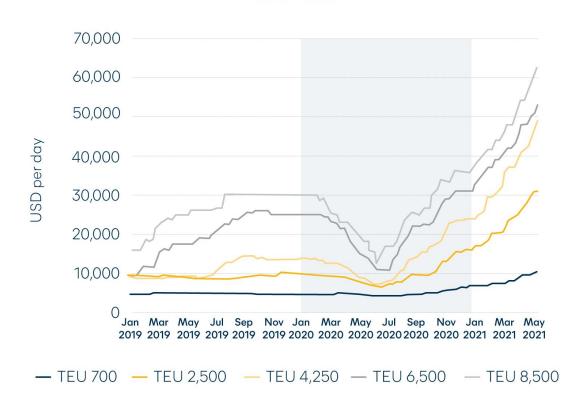

STRONG DEMAND FORECASTS,

AND OPERATIONAL COSTS INCREASE...

FREIGHT RATES WILL KEEP INCREASING.

THE WAY FORWARD?

Arguably opportunistically so, ocean carriers will continue to prioritize:

- Contributions
- Covering costs
- Shippers loyalty
- Long term commitments

Shippers need ensure they:

- Increase inventory
- Adapt to reduced free times
- Provide reliable forecasts to anticipate equipment needs
- Prioritize long term contracts
- Deliver commitments to protect allocations
- Pay the right price.
